Experience

Gordarg Hybrid Full-Stack Software Engineer

2018 – Present

- Design and development of custom-built software solutions for business. blog.gordarg.com/en
- Launched the brand from ground up. Gathered a team of 5 engineers and served 50+ customers from various industries with software engineering and integration services. They were satisfied and honored the team with their recommendation letters.

Zoomila Part-time On-site Software Engineer

February 2023 – August 2023

- Leading real state property portal. zoomila.com
- Performed transformation and refactoring of the main web application with thousands of users daily. This allowed the team to replace retired technologies. In the 6 months of the process, less than 10 downtimes were forced and the longest duration was only 15 minutes.
- Configured Linux servers and managed migration and was responsible for reliability and accessibility. Wrote SH, SQL, and PHP scripts to discover abandoned software functions and database tables.

Universal Versatile Society (United Nations Volunteer) Remote Web Developer

June 2022 – December 2022

- UNEP and UNCCD accredited non governmental organization working for permaculture, mental health and education in India. uvsociety.org
- Collaborated with a team of 12 volunteers from different countries and time zones to create a multi-vendor marketplace for Indian farmers based on a multi-tier RESTful architecture.
- Configured a WordPress/WooCommerce application behind a Dockerized Nginx Reverse Proxy, as a temporary solution.

Plompin Sanat Hybrid Software Developer

January 2018 – January 2023

- Designer and manufacturer of security seals. plompin.com
- Redesigned and maintained a network-based desktop application for 4 manufacturing and 2 packaging lines in a company allowing them to track each of 1 million pieces of industrial seals per month from assembly to packaging. This software has been under a heavy load for more than 5 years handling high-frequency transactions and real-time monitoring reports using Microsoft SQL Server.

Hamtire Full-time On-site Software Developer & Project Manager

June 2022 – December 2022

- Hamtire is a B2B market-place owned by "Tokan Tav Tejarat", a trading company. hamtire.com
- Developed a Laravel API and scaffolding scripts which were implemented as a base to develop features needed by a marketplace focused on online sales of tires and wheels.
- Coached a team containing a front-end Ionic-ReactJS developer, front-end web developer, back-end PHP developer, SEO specialist, and content managers. Was responsible for task delegation, cost management, and product market fit.

Mr. Bilit Group Back-end Software Developer

January 2021 – May 2021

- As the first company providing integrated travel search system called MrBilit.ir, this company is presenting all tourist services including reservation of airline, train and bus tickets.
- Participated in code refactoring, API and database development handling hundreds of thousands of simultaneous network and database operations.

AtiNet Software Developer

2019 – 2021

- The first Internet Service Provider (ISP) in west of Iran, which holds several IoT projects as well. atinet.ir

- Developed a server-side software (IoT) for storing and forwarding hundreds of thousands of network requests per day from hundreds of sensors with MySQL, PHP, and GoLang. The software has been functioning under heavy load since 2019 without any major change with almost no incidents from the release day on.

Bu-Ali Sina University *Guest Lecturer*

2018 – 2020

- Consisting 13 faculties in 6 campuses, this university enrolls 10 to 15 thousand students due to uniRank.
- Instructed the *Full-stack developer* workshop and *Advanced MVC* crash course at *Scientific Society of Computer Science and Engineering* to familiarize students with industry standards.

Education

MBA *Khaje Nasir Toosi University of Technology*

September 2021 – May 2023

Bachelor of Science in Computer Engineering *Bu-Ali Sina University*

September 2016 – August 2021

Honors & Awards

WorldSkills 2017 Abu-Dhabi | *Champion*, *National Gold Medalist*

- 4 days of challenging web, desktop, and mobile programming, data architecture, and software analysis in the world's largest skills competition welcoming tens of talented youth professionals from different countries.

Khwarizmi Youth Award 2015 | *National Ranked 3rd*

- Implemented a centralized authentication and authorization software, and was honored to get a place among 45 awarded students out of 25339 (top $\frac{1}{10}$ %) in the most creditable scientific festival of the nation, at the age of 17.
